## PROJECTS

**Baemark** *MongoDB, Express.js, React, Node.js, Razorpay, Shiprocket API, Tailwind CSS, Gsap*  
[baemark.com](https://baemark.com)

A modern, high-performance eCommerce website designed for a seamless shopping experience. Features include dynamic product listings, responsive UI, smooth animations, and secure checkout integrations.

**RB Health Club** *Express.js, React, Node.js, PostgreSQL, Tailwind CSS, Vercel (Serverless), gsap, Framer motion*  
<https://rbhealthclub.com>

A clean and responsive gym and fitness club website built for a real-world client. Features include service listings, contact forms, and mobile-friendly design. Built with performance and scalability in mind using serverless deployment.

**Apple Web Clone** *React, GSAP, Three.js, Tailwind CSS, Framer Motion*  
<https://apple-iphone-web.vercel.app/>

High-fidelity front-end clone of Apple's official website featuring smooth UI, pixel-perfect design, and interactive 3D animations for a visually engaging user experience.

**Pariksha Career Institute** *Next.js, TypeScript, Tailwind CSS, tRPC, Framer Motion, ShadCN/UI*  
<https://parikshacareerinstitute.in/>

A fully animated and responsive coaching institute website built with tRPC and Next.js. Showcases courses, success stories, and institute highlights with smooth UI transitions.

## AWARDS

### Galactic Problem Solver

Awarded for building a creative and impactful solution to a NASA-provided challenge, recognized for outstanding problem-solving and innovation at a global level.

NASA Space Apps Challenge
